- Peripheral Neuropathy*
- Fibromyalgia*
- Shingles*
- Nerve Trauma*
- Sciatica*
- Guillain-Barre*
- Lupus*.

Nuerazenx® FAQS

How to take Neurazenx

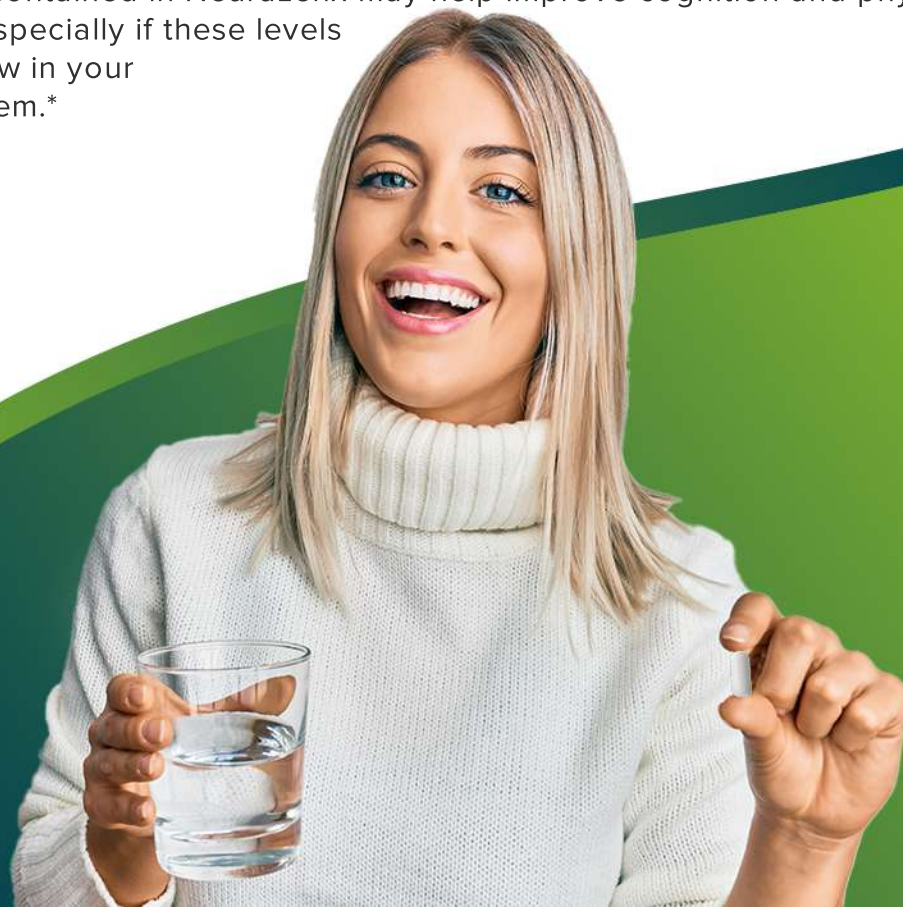

Take 2 capsules with 8 oz of water with or without food, once daily for one week. After one week, increase the dose to 2 capsules twice daily to get the maximum dose. You must use Neurazenx® for 3 consecutive months to get the maximum value since this is the time recommended to support the rebuild of nerve endings.*

Take Neurazenx® like a daily multivitamin to maintain good nerve health.

What to Expect Week by Week with Neurazenx:

PHASE ONE (Week 1) - ENERGY

Start by using 2 capsules once daily in the morning for the 1st week. You may experience some extra energy since you are using bioavailable Methylcobalamin and L-Methylfolate contained in Neurazenx may help improve cognition and physical performance, especially if these levels were already low in your circulatory system.*

PHASE TWO (Week 2) - NERVE CONSTRUCTION

Increase to 4 capsules once daily, or you can take 2 capsules, twice daily 8-12 hours apart. The strong antioxidant powers of Neurazenx will start to improve blood flow to your nerves, which will deliver key nutrients required to help create the building blocks required with nerve regeneration.

PHASE THREE (Weeks 3-6) - Nerve Axon & Myelin Sheath Support

These weeks are critical, please be patient for the product to work. During this phase, your nerves will begin using the Benfotiamine, Alpha Lipoic Acid, L-Carnitine, and the B-Vitamins, to increase the transmission of impulses between nerve cells. In addition these key ingredients will support the myelin sheath, which provides a highly protective film around the nerves which allow proper nerve impulse transmission.

PHASE 4 (Weeks 7-14) - Improve circulation

Many patients will start to notice more dramatic changes. The 1200mg Alpha Lipoic Acid dose optimizes nerve conduction pathways to improve dilation to nerves which may help to reduce nerve pain, burning and tingling in your arms and feet.

PHASE 5 (Week 15+) - COMPLIANCE

Your body needs these key vitamins and nutrients to remain healthy, so stay compliant with your regimen. If you are feeling much better, you can try to reduce the dose to 2 capsules per day, if you wish to experiment.

What makes Neurazenx® so awesome?

Neurazenx® is created by clinical pharmacists and physicians to support nerve pain reduction. It's formulated to provide key bioavailable and organic nutrients required to support nerve damage repair. It contains 20 research backed pharmaceutical-grade ingredients that support diabetic neuropathy and peripheral neuropathy pain.*

Why is nutrition crucial for neuropathy?

According to research, having a deficiency with key nutrients such as alpha lipoic acid, thiamine, and vitamin B12 can directly lead to neuropathy and there is some evidence that these supplements may help support the condition, especially diabetic neuropathy.*

WHY ZEN NUTRIENTS?

They say pharmacists are one of the most trusted professionals in the world. Well then, if you take the trust and wisdom of a pharmacist, combine that with the knowledge and expertise of a physician, this equals Zen Nutrients.
